

CAPITAL PROJECTS MAP: GROWING THE REGION, ONE INVESTMENT AT A TIME

Thanks to a collaborative regional effort, the STL 2030 Progress Capital Projects Map depicts economy-shaping capital projects and assets across the 15-county bi-state St. Louis metro and visualizes the geography of economic transformation and growth. The GIS map showcases St. Louis' economic resurgence and geospatial thought leadership. This map is intended to highlight momentum, raise awareness, and spur dialogue and collaboration around how and where our region is investing to build the inclusive economy of the future. A metro-scale collaboration across public and private partners, the map showcases the potential of cross-border open data initiatives.

- 30+ data partners*
- 1,000+ capital projects*
- \$25B+ development projects*
- \$10B+ infrastructure investments*
- 15 County profiles
- 1 STL on the rise

WHAT'S ON THE MAP?

The map includes projects that were planned, under construction, or completed since the start of the decade (January 2021) as well as existing assets and other contextual data layers. We sourced map data from economic development partners across the 15 counties, state and regional infrastructure agencies, utilities, and CBRE, as well as from public sources such as the Construction Forum and press releases.

Major Developments

Transformational Industrial, Commercial, Multifamily & Institutional Projects (20k SF+ in St. Louis City/County, St. Charles, St. Clair, Madison; Threshold Varies in Other Counties)

Infrastructure Projects

Roads & Bridges (MoDOT/IDOT/ East-West Gateway), St. Louis Regional Freightway Priority Projects (Air, Rail, River & Road), Public Transit, Greenways, Water & Sewer, Energy

Economy-Enabling Assets

Transportation (Surface, Airports, Air Cargo, Transit, Rail, River & Trucking Terminals), Major Employers, Meds, Feds, Eds, Innovation Spaces, Business / Industrial Parks, Utilities, Culture & Tourism, Parks, Greenways

North Star Metrics

Background layers illustrating racial and spatial dimensions of development including population (density, demographics), GDP, household income, and home ownership

MOVING FORWARD

We're just getting started.

Our team will work with partner organizations on an ongoing basis to refresh and add new data to the map. So get your project on there! Either submit a project via the Tell Us More button on the map app or email us at Progress@GreaterSTLinc.com to explore how we can partner.

GREATER ST. LOUIS INC.
STL2030PROGRESS.COM

*As of public release on Sept. 21, 2023. These numbers will change on an ongoing basis. The dollar amounts are approximate and reflect only the subset of projects captured on the map for which we have this data. The actual level of capital investment for projects of all sizes and types across the metro is greater.
